Re: Eysenck Twin Registry Special Project

Gentlemen:

Dr. H. J. Eysenck has requested a three year continuation of his project for the maintenance and computerization of the Twin Registry of the Institute of Psychiatry. Funding for continuation of the Twin Registry project is requested in the amounts of \$48,000 for the first year, \$44,000 for the second year, and \$43,000 for the third year. Copies of the proposal and budget for the Twin Registry project are enclosed for your information. We recommend that this project be approved as a CTR Special Project.

For the last several years, Dr. Eysenck has compiled data for the Twin Registry which have provided valuable information for his continued analyses of smoking, health and personality questions. The data collected have formed the bases for the publication of scientific articles and several chapters in books (list attached). Additional funding for the Twin Registry project is sought to further this research by allowing for continued data collection and a substantial increase in the number of twin subjects necessary for analyses.

Dr. Eysenck's proposal has been discussed with Dr. Sommers and he favors its funding for the additional three year
